

**BULLDOG® MULTI BOND™** is the only adhesive you need for hundreds of tough jobs around the shop and garage. MULTI BOND is a professional grade adhesive that provides a strong, flexible bond for use on all types of surfaces – metal, plastic, glass and more! It can even be used on wet surfaces! It is a super-thick adhesive that is paintable, can be used as a seam sealer, is weather-resistant, non-flammable and VOC Compliant in all states. MULTI BOND™ sticks fast, giving you tough immediate hold, even on vertical surfaces.

### **MULTI BOND Makes Stuff Stick!™**

#### **DIRECTIONS FOR USE: Instructions to assemble trigger and activate dispensing:**

- 1) Ensure the surface is clean and free from debris.
- 2) Cut the nozzle at the desired point.
- 3) The nozzle should be screwed all the way down prior to opening. Twist nozzle counterclockwise 1½ turns. This will raise the trigger to the proper position.
- 4) Depress the trigger to dispense adhesive. If it doesn't flow, unscrew the nozzle another ½ turn. Repeat until adhesive flows.
- 5) Twist nozzle down after use, which will dispense a small amount of adhesive. This will cure, forming a plug, which can be pulled out when ready to reuse.

**CLEANUP:** Use acetone to remove wet adhesive from the work area.

**HELPFUL TIPS:** For best results on plastic, sand the surface prior to application. Ideal temperature for application is 50°F to 90°F. MULTI BOND provides immediate grab – adhesive strength continues increasing over time, reaching full cure in 7 days. Not for use where temperatures exceed 220°F. Always test product in a small, inconspicuous area to ensure no damage will result. Product may eventually clog in the tip, especially in areas of high humidity.

**CAUTION! CONTENTS UNDER PRESSURE. DO NOT CUT, PUNCTURE, INCINERATE OR STORE ABOVE 120°F. EXPOSURE TO HEAT OR PROLONGED EXPOSURE TO SUN CAN CAUSE BURSTING. CAUTION! SKIN AND EYE IRRITANT.** Contains Amino Silane and Propellant. Avoid contact with eyes and prolonged contact with skin. **IF SWALLOWED**, do not induce vomiting. Call your Poison Control Center at 1-800-222-1222, hospital emergency room or physician immediately for instructions. **IN CASE OF EYE CONTACT**, immediately flush with water, remove any contact lens, continue flushing with water for at least 15 minutes. If irritation persists, get medical attention. **IN CASE OF SKIN CONTACT**, immediately wash with soap and water. If irritation persists, get medical attention.

**KEEP OUT OF REACH OF CHILDREN.**

**Product Category:** Web Spray Adhesive • **Max VOC:** 40%
